Instruction to Bidders for Online Bid Submission

e-Nivida is the complete process of eTendering, from publishing of tenders online, inviting online bids , evaluation and award of contract using the system. You may keep a watch of the tenders floated under <https://enivida.odisha.gov.in>

The will invite for online Bids. Bidder Enrolment can be done using "**Bidder Enrollment**".

The instructions given below are meant to assist the bidders in registering on the e-Nivida Portal, and submitting their bid online on the portal as per uploaded bid.

More information useful for submitting online bids on the eNivida Portal may be obtained at: <https://enivida.odisha.gov.in>

GUIDELINES FOR REGISTRATION:

1. Bidders are required to enrol themselves on the eNivida Portal <https://enivida.odisha.gov.in> _ or click on the link "**Bidder Enrollment**" available on the home page of e-tender Portal by paying the Registration fee of Rs.2,500/- + Applicable GST.
2. As part of the enrolment process, the bidders will be required to choose a unique username and assign a password for their accounts.
3. Bidders are advised to register their valid email address and mobile numbers as part of the registration process. These would be used for any communication with the bidders.
4. Upon enrolment, the bidders will be required to register their valid Digital Signature Certificate (**Only Class III Certificates with signing + encryption key usage**) issued by any Certifying Authority recognized by CCA India (e.g. Sify / TCS / nCode / eMudhra etc.), with their profile.
5. Only valid DSC should be registered by a bidder. Please note that the bidders are responsible to ensure that they do not lend their DSC's to others which may lead to misuse.
6. Bidder then logs in to the site through the secured log-in by entering their user ID /password and the password of the DSC / e-Token.
7. The scanned copies of all original documents should be uploaded in pdf format on e-tender portal.

8. After completion of registration payment, bidders need to send their acknowledgement copy on our help desk mail id odishaenivida@gmail.com , for activation of the account.

SEARCHING FOR TENDER DOCUMENTS

1. There are various search options built in the e-tender Portal, to facilitate bidders to search active tenders by several parameters.
2. Once the bidders have selected the tenders they are interested in, then they can pay the Tender fee and processing fee (NOT REFUNDABLE) by net-banking / Debit / Credit card then you may download the required documents / tender schedules, Bid documents etc. Once you pay both fee tenders will be moved to the respective 'requested' Tab. This would enable the e- tender Portal to intimate the bidders through SMS / e-mail in case there is any corrigendum issued to the tender document.

PREPARATION OF BIDS

1. Bidder should take into account any corrigendum published on the tender document before submitting their bids.
2. Please go through the tender advertisement and the tender document carefully to understand the documents required to be submitted as part of the bid.
3. Bidder, in advance, should get ready the bid documents to be submitted as indicated in the tender document / schedule and generally, they can be in PDF formats. Bid Original documents may be scanned with 100 dpi with Colour option which helps in reducing size of the scanned document.
4. To avoid the time and effort required in uploading the same set of standard documents which are required to be submitted as a part of every bid, a provision of uploading such standard documents (e.g. PAN card copy, GST, Annual reports, auditor certificates etc.) has been provided to the bidders. Bidders can use "My Documents" available to them to upload such documents.
5. These documents may be directly submitted from the "My Documents" area while submitting a bid, and need not be uploaded again and again. This will lead to a reduction in the time required for bid submission process. Already uploaded documents in this section will be displayed. Click "New" to upload new documents.

SUBMISSION OF BIDS

1. Bidder should log into the website well in advance for the submission of the bid so that it gets uploaded well in time i.e. on or before the bid submission time. Bidder will be responsible for any delay due to other issues.
2. The bidder has to digitally sign and upload the required bid documents one by one as indicated in the tender document as a token of acceptance of the terms and conditions laid down by Department.
3. Bidder has to select the payment option as per the tender document to pay the tender fee / Tender Processing fee & EMD as applicable and enter details of the instrument.
4. In case of BG bidder should prepare the BG as per the instructions specified in the tender document. The BG in original should be posted/couriered/given in person to the concerned official before the Online Opening of Financial Bid. In case of non-receipt of BG amount in original by the said time, the uploaded bid will be summarily rejected.
5. Bidders are requested to note that they should necessarily submit their financial bids in the format provided and no other format is acceptable. If the price bid has been given as a standard BOQ format with the tender document, then the same is to be downloaded and to be filled by all the bidders. Bidders are required to download the BOQ file, open it and complete the yellow Coloured (unprotected) cells with their respective financial quotes and other details (such as name of the bidder). No other cells should be changed. Once the details have been completed, the bidder should save it and submit it online, without changing the filename. If the BOQ file is found to be modified by the bidder, the bid will be rejected.
6. The server time (which is displayed on the bidders' dashboard) will be considered as the standard time for referencing the deadlines for submission of the bids by the bidders, opening of bids etc. The bidders should follow this time during bid submission.
7. The uploaded bid documents become readable only after the tender opening by the authorized bid openers.
8. Upon the successful and timely submission of bid click "Complete" (i.e. after Clicking "Submit" in the portal), the portal will give a successful Tender submission acknowledgement & a bid summary will be displayed with the unique

id and date & time of submission of the bid with all other relevant details.

9. The tender summary has to be printed and kept as an acknowledgement of the submission of the tender. This acknowledgement may be used as an entry pass for any bid opening meetings.

For any clarification in using eNivida Portal:

3.2 Project Background

3.2.1 About the Department

The Department of Electronics & Information Technology is the nodal department for Government of Odisha in the matters of IT, ITES and Communication. The department plays a vital role in formulating and implementing policy matters in Information Technology, ITES, Electronics and Telecom; promotion of Odisha as an ultimate ICT destination for investment and facilitating ICT industries; assisting other department for effective e-Governance and capacity building; Promotion of ICT based education in the State.

Odisha Computer Application Centre (OCAC), the Technical Directorate of Electronics & Information Technology Department, Government of Odisha, has evolved through years as a centre of excellence in IT solutions and e-Governance. It has contributed significantly to the steady growth of IT in the state. It helps IT to reach the common citizen so as to narrow down the Digital Divide and widespread applications of IT in establishing a system where the citizens are receiving good governance in addition to ensuring speed of decisions from a transparent Government through an effective e-Governance System.

3.2.2 Project Profile

Odisha Computer Application Centre (OCAC) on behalf of S&ME Department inviting proposals on **TURNKEY BASIS** from the reputed bidders towards Procurement, Supply, Installation and Warranty Support for Implementation of Monitoring School Activity for a period of 3 years.

The purpose of this RFP is to establish the Implementation of Monitoring School Activity. This RFP is issued by OCAC, which is the sole point of contact during selection process. The officer responsible for entire process is **General Manager (Admin)**. The

purpose of this RFP is to provide interested System Integrator (SI) / Bidders with information to enable them to prepare and submit a proposal towards Procurement, Supply, Installation and Warranty Support of Implementation of Monitoring School Activity for a period of 3 years.

Monitoring School Activity: Quality education has become essential in today's world as the skill set of every individual is updating as the years, in terms of technology, passes by. The competitive environment is cut-throat, and one needs to keep up! Technology has entered every aspect of our lives and preventing students and teachers to make the most of such developments is a crime. A smart classroom is a ramped-up mode of education which, instead of taking away from education or the attention span of students, adds opportunities to the existing traditional classroom setup. The opportunity to provide students with quality education by helping them understand concepts better, improve their reading and comprehension skills, and achieve academic excellence. The traditional lecture-and-note-taking ritual has begun to lose its effectiveness. However, it is quite impossible to quit cold turkey, as books and notes are an integral part of learning in a classroom. Efforts to grow academically is necessary to implement deeper levels of growth and conceptual development. It's thus the education system's responsibility to employ various technological opportunities for students' gains. The classroom has successfully turned an interactive technology to a curriculum creating and collaborative learning system for teachers and pupils, respectively. It's emphasizes blended learning, the traditional and novel methods of teaching, as a tool to learn basic and complex concepts for an enhanced academic foundation with the help of visuals and activities. With such a view in mind, smart learning was introduced to classrooms. The aforementioned new methods of teaching have been introduced to what is now known as a smart classroom. The Digital Classroom can be considered to be a "technology-enabled" learning environment where student learning and interaction with the instructor and peers is fully supported through strategic use of Information and Communication Technologies (ICTs). This project revolves around Modernizing schools and establishing "Digital learning centre" with a focus on implementing "Implementation of Monitoring School Activity".

Key features:

- (A) **Interactive Display:** Interactive displays are used to showcase dynamic interactive multi-media content on Tab Based technology, the system can adapt to any flat surface and make it interactive of the classroom evaluation system.
- (B) **Collaborative Learning:** In a Implementation of Monitoring School Activity, with products such as devices powered by technology, collaboration within a class becomes very easy. Teachers and pupils can come and collaborate on the interactive display, which has multi touch feature, or from their dedicated devices to push their thoughts and doubts as well as to attend the evaluation process on to the display for everyone in class to see.

- (C) **Curated Educational Material:** Teachers, school administrators and parents do not have to hesitate about using the internet of teaching content as the Ems.ai line of products already come with curated educational material. The internet content is always updated and filters out anything irrelevant material for classroom purposes.
- (D) **A Teacher's Assistant App:** It is not uncommon to find a teaching assistant in a traditional classroom. Just like any other assistant, the teachers will find a confidant in an in-built learning assistant in Spark devices that helps teachers prepare for lessons and teach concepts effectively and conduct the assessment of students of the classroom instantly.
- (E) **Remote Classroom Access:** Absence in class is a common incident; be it the flu, fever or a holiday. Now students in a smart classroom won't miss a day of learning, thanks to the technology which enables remote access to an ongoing class. With the permission of the teacher the student can attend the class from wherever he or she is at.
- (F) **Lesson-Plan Creation:** With the help of the IT enabled technology, a teacher can take a break from the painstaking process of lesson planning. He or she can make lesson plans on the go! One needs to only login and ask the assistant to populate information pertaining to the topic from the curriculum and Voila! A lesson plan for the particular session is ready. Teacher can now focus on teaching.
- (G) **Save Class Option:** If a teacher feels that the class is worth saving for future reference or to pass on to students for revision, he or she can do so. The entire session can be saved in My Cloud and can be revived anytime it is necessary.
- (H) **Animated Modules and Videos:** In today's classrooms children are smarter than the methods of teaching, as they have access to alternative source of information like the Internet. So, a smart classroom, in order to keep up with these tech-savvy children, attracts attention by displaying animated media, such as videos, pictures and audios pertaining to the lesson in hand. This not only enhances the aesthetics of teaching but also helps students remember and visualize concepts in their mind, making them easier to learn.
